

Office Eco Consultant

The project aims, by exchanging ideas, know-how, experience and good practices, to develop and to pilot internationally **innovative training** practices, methodical tools and a certification system, designed for adult education sector stakeholders that seek to enhance their job market opportunities by pursuing career in promotion of resource and energy saving behaviour along with the **Green Growth concepts** in office environment.

Results of the «Office Eco Consultant» project

Our initial aim to develop and pilot an **innovative training system for combating unemployment** through introduction of a new occupational profile “Office ECO Consultant” along with the corresponding training methodology and **ICT based curriculum** was successfully reached. We have also reached all following objectives we originally aimed for:

1. Increased the **quality of the qualifications** of the related stakeholders (adult learners, under-skilled adult learners, adult trainers, participating organisations, associated partners, etc.).
2. Contributed to the **recognition and validation of skills** and qualifications.
3. **Enhanced the employability** status of our trainees
4. Provided **access to data** related to green jobs, green office, green business concepts.
5. Enhanced the **understanding** of the mechanism for teaching and learning through the establishment of social, business and academic treaties.
6. **Promoted e-learning** by migrating the learning material on resilient web platform accessible to the target groups at several education environments.

Final Dissemination Conference in Vilnius, 26th of August, 2021

The main purpose of the conferences was to support products' **mainstreaming and sustainability** of the results in the post-project phase. We brought together project participants and stakeholders from **all over Lithuania** to review project results, discuss on the project perspectives and provide key recommendations and inputs.

Profile of participants: representatives from local authorities from various cities of Lithuania (from municipalities of Vilnius, Utena, Šiauliai, Panevežys, etc.), representatives from various business entities from Vilnius, people currently working in offices, unemployed people looking for a job in the office environment, trainers active in promotion of eco-friendly lifestyle, representatives of Green Policy institute of Lithuania.

Sustainability of «Office Eco Consultant» project results

Since the core products are delivered and **freely available in English and partnership languages**, new training modules could potentially be **adopted in other EU countries**. We expect to see, in the long term, a snowballing effects: more adult education organizations **providing higher quality training**, which better matches job market requirements and challenges of today's and tomorrow's world; increasing the skills and competences of adult educators and learners, promoting resource and energy saving behaviour and Green Growth concepts in office-based work environments.

Also, all partnership members have incorporated the developed training modules directly into their own working practice and into their portfolios of services.
